## Description:

Nefertiti's current world dominion as a cultural and artistic icon presents an interesting contrast with the way in which she was actively written out of history soon after her own death. This book explores what we can reconstruct of the life of the queen, tracing the way in which she and her image emerged in the wake of the first tentative decipherment of Egyptian hieroglyphs during the 1820s-1840s, and then took on the world over the next century and beyond. During the last half of the fourteenth century BC, Egypt was perhaps at the height of its prosperity. It was against this background that the 'Amarna Revolution' occurred. Throughout, its instigator, King Akhenaten, had at his side his Great Wife, Nefertiti. When a painted bust of the queen found at Amarna in 1912 was first revealed to the public in the 1920s, it soon became one of the great artistic icons of the world. Nefertiti's name and face are perhaps the best known of any royal woman of ancient Egypt and one of the best recognized figures of antiquity, but her image has come in many ways to overshadow the woman herself.

Nefertiti and her sister, Mudnodjame, were certainly regular members of the court at Thebes and, whether or not Ay introduced her to Amenhotep IV, the two would have known each other simply for that reason. Ancient images and inscriptions indicate her early interest in the cult of Aten but, as every Egyptian favored one god or another, there is no reason to believe that she had any ideas relating to monotheism or elevating Aten above the other gods (as has been suggested by some scholars).

"Writing an overview of Nefertiti's life and times is essentially an impossible task. It would require having spent a lifetime reading thousands of very specialized books and articles, and juggling countless complex lines of evidence, including ancient DNA studies, art history, chronology, foreign relations, an extensive acquaintance with the complex excavation history of Amarna, and a mastery of the complexities of the Valley of the Kings, among many other topics. Neferneferuaten Nefertiti (/ˈnɛfɪrɪˈtiːti/) (c. 1370 – c. 1330 BC) was a queen of the 18th Dynasty of Ancient Egypt, the Great Royal Wife of Pharaoh Akhenaten. Nefertiti and her husband were known for a religious revolution, in which they worshipped one god only, Aten, or the sun disc. With her husband, she reigned at what was arguably the wealthiest period of Ancient Egyptian history. Some scholars believe that Nefertiti ruled briefly as Neferneferuaten after her husband's death and before the
