Education in the United States is free and compulsory for 10 years, beginning at age 6 and culminating at age 16. Educational programs are guided by standards set at both the national and state level, and implemented at the local level. Texas school children Elementary or primary education in the United States typically begins at age six and represents the beginning of a student's compulsory education. This stage of education lasts six years, beginning with grade one and culminating with grade 6 (age 12). The vocational programs at junior colleges and private vocational institutes typically span between 1 and 2 years. Education in the United States comprises three basic levels: elementary, secondary and higher education. Parents may choose whether to send their children to their local free public schools, or to private schools which charge fees. The organization and curricula of private schools and colleges are similar to those of public schools although the administration differs. The vast majority of students at the primary and secondary levels go to public schools. Most of those who attend private schools attend church sponsored parochial schools. The school year is usually nine months long, from early September to the end of June. Place names in the United States are a hodgepodge, a seemingly random collection, of different languages. This can make pronunciation a bit difficult, even for people who live here. From the Pacific Northwest to the eastern shores, some names are infamous in this regard. Let's talk about 12 of them. We begin in the Pacific Northwest. This city is located in the northwestern part of the United States. Spokane is known for its natural beauty. The residents are very outdoorsy, meaning they like to enjoy outdoor activities like hiking and biking. Moving down the coast, we come to California. Many names in this state come from the early Spanish settlers. 2. La Jolla, California. This sun-drenched town is commonly mispronounced as La JOL-LA.
