Accelerated Reader gives teachers the information they need to monitor students' reading practice and make informed decisions to guide their future learning. A comprehensive set of reports reveals how much a student has been reading, at what level of complexity, and how well they have understood what they have read. Key information from Star Reading and Accelerated Reader can be viewed in context with other information in new Dashboards, such as the Renaissance-Questa Dashboard, built specifically for MATs. Data for Multi-Academy Trusts. Continue the reading journey at home or in school with myON. myON by Renaissance is a student-centred, personalised literacy platform that offers every student unlimited access to an enhanced digital library. Accelerated Reader (AR) is a popular reading program used in public and private schools. But even if you've already heard of this online program or your child is currently using it, you may have questions about what it is or how it works. Here's what you need to know about Accelerated Reader and how it might impact your child at school. Are you a teacher? (The program has more than 150,000 titles to choose from on its BookFinder list.) Each book has online reading practice quizzes, which you may hear referred to as AR tests. Teachers use these quizzes to track each student's progress and set appropriate goals for each. Your child's teacher can work with the school district's reading specialist or curriculum to track progress and set goals in the AR program.
