This description may be from another edition of this product. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains Edmund Burke was an Anglo-Irish statesman, author, orator, political theorist, and philosopher who served for many years in the British House of Commons as a member of the Whig party. He is mainly remembered for his support of the American colonies in the dispute with King George III and Great Britain that led to the American Revolution and for his strong opposition to the French Revolution. The latter made Burke one of the leading figures within the conservative faction of the Whig party (which he dubbed the "Old Whigs"), in opposition to the pro-French-Revolution "New Whigs", led by Charles James Fox. Burke also published a philosophical work where he attempted to define emotions and passions, and how they are triggered in a person.
