It focuses on the role of the doctrine of God in such a framework and compares the work of Edmond La Beaume Cherbonnier with that of more. From an exegetical and biblical-theological perspective this article demonstrates that in order to fit Jesus into his Zen-Christian theological program, Habito must divorce Jesus from his theological, linguistic, and historical context. HISTORICAL PERSPECTIVE. Introduction. It may sound absurd to state that the study of religion when taken distinctively from the philosophy of religion and theology is not really concerned with the religious truth expressed by the religion studied. The study of religion is not aimed at deciding whether there is a God or. one of these methods known as phenomenological approach to the study of religion to ascertain the origin and development of the method and its application. Phenomenological study of. Immanuel Kant, who was a contemporary of Lambert, also used the term twice wherein he laid the foundation for its development when he distinguished things as they appear to us. (which he called phenomena) from things as they really are (which he called noumena). Following an introduction, part 1 offers biblical perspectives on a theology of religions in four chapters. Part 2 traces historical developments of the church as it has wrestled with a theology of religions. In six chapters he moves from the early church fathers to the twentieth century. In parts 3 and 4, Kärkkäinen surveys the current scene. This book has all the hallmarks that have become characteristic of his work: good compact summaries, lucid writing, comprehensive scope, ecumenical tone, and fair treatment. This most recent book is a welcome addition and will be valuable in helping to get hold of the complex discussion taking place today.
