State structures, international forces, and class relations: Theda Skocpol shows how all three combine to explain the origins and accomplishments of social-revolutionary transformations. Social revolutions have been rare but undeniably of enormous importance in modern world history. States and Social Revolutions provides a new frame of reference for analyzing the causes, the conflicts, and the outcomes of such revolutions. Second, in the case of France and Russia, peasants could rebel on their own; meaning they did not need any mobilization from urban radicals. While in China, a kind of military mobilization was necessary. Third, unlike their counterparts in France and Russia, Chinese peasants had to undergo a distinct condition of being attached in two communities: his village and the marketing system to which his vilage belonged. 2 Suray Agung Nugroho Korean Studies In other words, while France and Russia Social revolution could be seen as peasant movement, the Chinese tends to be an elite/mass movement. Along reading Skocpol's paper, the background of each social revolution in France, Russia, and China was elaborated. States and Social Revolutions: A Comparative Analysis of France, Russia and China is a 1979 book by political scientist and sociologist Theda Skocpol, published by Cambridge University Press, which explains the causes of revolutions through the structural functionalism sociological paradigm comparative historical analysis of the French Revolution of 1789 through the early 19th century, the Russian Revolution of 1917 through the 1930s and the Chinese Revolution of 1911 through the Cultural Revolution CITATION: Skocpol, Theda. States and Social Revolutions: A Comparative Analysis of France, Russia, and China. Cambridge: Cambridge University Press, 1979. Part I. ABSTRACT: In this part of the book, Skocpol presents an argument about the causes of social revolutions in France, Russia, and China (hence, the title of Part I). In brief (and in the first paragraphs of the two chapters in this section), social revolutions in France, Russia and China emerged from specifically political crises centered in the structures and situations of old-regime states.
