In a handbook I wrote some years ago for Americans going to China on business or professional missions, I was able to apply Hofstede's dimensions in what I believed were direct, practical ways. As an example, here is a short excerpt on how the idea of "Power Distance" can be applied. I found that each of Hofstede's four dimensions was very useful in exploring how Americans could be more effective in building relationships and achieving their goals in China. Dimensions Of Chinese Cultural Concepts. Let's use Hofstede's dimensions to analyze some specific Chinese cultural concepts. On Home Anthropology and Sociology Land Alienation and Its Dimensions: A Study of Scheduled District of Orissa. Land Alienation and Its Dimensions: A Study of Scheduled District of Orissa. Author. Pramila Prava Patnaik and Karunakar Patnaik. This study has tried to study both the aspects. Given its limitations, it adds little to the literature on alienation of legal landholding of tribals, whereas the team feels that it makes a significant contribution in this brief study to the issue of loss of access to land through state led processes. This, for us, is an extremely important development, as resolving many of these issues only requires political and bureaucratic will by an avowedly "welfare state", and are not as contentious as the redistribution and restoration of land for which laws already exist. In Schedule Areas (tribal majority areas) of Orissa, three-fourth of land is owned by the State, and in districts like Gajapati and Kondhmal, less than 10% land is owned by tribals.
