Life-changing events can be very dramatic and, by their very nature, disruptive. Your whole being is headed in one direction physically, emotionally, and mentally; and that direction has all the momentum of your past and all the dreams of your future. It was not with a shout but with a whisper that my life was thrown into utter turmoil and transformation. It has been more than forty years now since that life-changing moment, but I remember it as if it were yesterday. The best part about it is that it gives its information objectively, without being pro-choice or pro-life. It is just pro-information. If this subject interests you, then this is one of your best options.
