The Innovation Ultimatum: Six strategic technologies that will reshape every business in the 2020s. By Steve Br PREFACE This book is designed to give the Chief Financial Officer (CFO) a complete overview of his or her place in the corporation and how to handle strategy decisions related to a variety of financial, tax, and information technology issues. Here are some of the questions that Chapters 1 through 4 allow one to answer related to these issues: What should I do during my first days on the job? When can I use net operating loss tax carryforwards? How can I use transfer pricing to reduce income taxes? What specific information technologies should I install for a certain type of business, such as a low-cost producer or rapid product innovator? The CFO
