

# Contemporary Affairs, Volume 1, Issue 1; 1987; Patriot Publishers, 1987

This volume is largely the result of a conference on contemporary English modality held at the University of Verona in September 2001, the aim of which was to foster interaction among scholars from different theoretical backgrounds with a common interest in English modality by promoting discussion, the exchange of ideas and the reporting of recent progress in the field. Each one of these areas is dealt with in a section of the present volume and all of them are framed by Frank Palmer's introductory paper which offers an overview of the most topical issues in contemporary English modality from a functional perspective. Now if the issue were the factuality or truth of the proposition, one would expect the indicative to be used here, for the proposition is clearly true or factual.
