Rather than shying away from the critical problems presented by these books, Ehrman addresses the historical and literary challenges they pose and shows why scholars continue to argue over such significant issues as how the books of the New Testament came into being, what they mean, how they relate to contemporary Christian and non-Christian literature, and how they came to be. The New Testament consists of 27 separate books, written mainly, though not exclusively, by Apostles of the Lord Jesus Christ. These books teach and testify of the ministry and Atonement of Jesus Christ and the rise of the early Christian Church. The Bible "the Old and New Testaments" has influenced more people than any other book ever written. This chapter contains a brief overview of the historical period between the Old and New Testaments, a short summary of the contents of the four Gospels with emphasis on the final week of the Savior's mortal life, a brief history of how the New Testament came to be, information about the Joseph Smith Translation, and statements on the importance of the New Documents Similar To The New Testament-A Historical Introduction To The Early Christian Writings.
