John Toland's "No Man's Land" is popular non-academic history at its very best. Toland wrote the book for the general public and in feel it reads like a well written magazine article. If you are looking for serious military history, this book is not for you. However, if you are looking for a well written summary of the great events of 1918, this book is for you. It is a great jumping off point for more detailed study. Highly recommended! 1918: The end of the war to end all wars. The end of an era for victors and vanquished alike. When Germany launched the Ludendorf Offensives-the most massive military bombardment of World War I-they seemed certain to win.Â No Man's Land takes us into the trenches, behind enemy lines, into military strategy sessions and through the corridors of power in London, Paris, Berlin, and Washington in a brilliant account of one of the most fateful years in Western history. Drawing on new sources-diaries, memoirs, vivid personal experiences-here is a book that for sheer excitement, drama, vigor, and emotional impact rivals the greatest novels, history marvelously told by the incomparable John Toland.
