ESAB's new LEGIO concept is ideal for fabrication of small batches of friction stir welded panels. The equipment is placed in the workshop right next to the assembly of the ship's hull. The picture is from Estaleiros Navais do Mondego S.A. Shipyard in Portugal. Even small batches can be effectively welded on-site. Figure 21. Modular LEGIO 5UT friction stir welding machine for flexible manufacturing. The working envelope of this particular equipment is 6000x500x300mm (x-, y-, z- axis).
