Description:

This market-leading language reader features thought-provoking readings that explore the various interconnections between language and American society.

For more than 25 years, this engaging reader has challenged students to critically examine how language affects and constructs culture and how culture constructs and affects language. This thirteenth edition maintains the integrity of past editions while reflecting the new and fascinating language issues that exist in today's culture. Provocative selections are organized around nine major topics, and then broken into stimulating sub-themes like the connections between gender and language differences, hate speech, the language of war, and censorship on campus, inviting

students to debate current social and cultural issues that are inseparable from language.

Exploring Language and Linguistics introduces the key concepts of linguistics and the application of these concepts to real-world settings. The first eight chapters cover the standard topics of introduction to linguistics courses, while subsequent chapters introduce students to applied topics such as media discourse, literary linguistics and psycholinguistics. CONTRIBUTORS. KLAUS ABELS received his PhD in linguistics in 2003 from the University of Connecticut. Exploring the Language of Visuals: Body Language. Is English Sexually Biased? Introduction to the A-Z of Non-Sexist Language, Margaret Doyle. In the Canon, For All the Wrong Reasons, Amy Tan. Beware the Advozealots: Mindless Good Intentions Injure the Handicapped, Bernard Rimland, Ph.D.. Exploring the Language of Visuals: Callahan Cartoon. 10. What is The Language of the American People? What's "Standard" English? Gain the core knowledge to begin programming in any language. In this course, instructor Annyce Davis uses Python to explore the core concepts and structure of programming languages and helps you grasp what's going on under the hood. After going over basic statements and expressions in Python, Annyce explores strings, variables, and conditional code which are common topics in all programming languages. She also shows how to work with different kinds of data and troubleshoot a variety of errors. Exploring English: Language and Culture. 4.8 (262 reviews).
