Out of all the stages of life, this one helps us to lay the proper foundation. Why do people struggle in this stage? The greatest danger we encounter during this stage is that we are not able to let go of the need for external validation. This new-won independence leads us on the great journey of initiating self-discovery. While the first stage primarily focused on integrating us into society, the second stage is all about teaching us to be truly individual. From a psychological perspective, the last stage helps us to accept the fact of our own mortality. In fact, it offers us the chance to make sure something of us continues to live on in this world, even when we are long dead. I hope you enjoyed this article on the four stages of life. I Know Where She Is by S.B. Caves. Buy on Amazon. Essay based on Thomas Armstrong's book The Human Odyssey: Navigating the 12 Stages of Life. Describes the 12 stages of life including: prebirth, birth, early childhood, middle childhood, late childhood, adolescence, early adulthood, midlife, mature adulthood, late adulthood, and death & dying. Since each stage of life has its own unique gift to give to humanity, we need to do whatever we can to support each stage, and to protect each stage from attempts to suppress its individual contribution to the human life cycle. Thus, we need to be wary, for example, of attempts to thwart a young child's need to play through the establishment high-pressure formal academic preschools. We should protect the wisdom of aged from elder abuse. The Stages of Life: A Groundbreaking Discovery: the Steps to Psychological Maturity. New York: Atlantic Monthly Press, 1995.
