Modern World History provides a comp 9 - Modern World Leaders. from Part II - Historical Rankings. Steven Skiena, State University of New York, Stony Brook, Charles B. Ward. In the course of our study, we have created a dataset of more than 3,000 modern national leaders from more than 150 different countries. But any meaningful attempt to identify the "most significant" leader of a nation faces several issues of definition and bias. We discuss some of these considerations here. Cultural and regional bias. Our analysis relies on datasets that inherently display linguistic and cultural biases. Both our Wikipedia analysis and book Ngrams data are based exclusively on English-language sources, and hence do not equally reflect the contributions of other languages and c Modern World Leaders. book.
