Therapeutic Communication Techniques. To encourage the expression of feelings and ideas. Active Listeningâ€” Being attentive to what the client is saying, verbally and non-verbally.â€” Sharing Humorâ€” Contributes to feelings of togetherness, closeness and friendliness. Promotes positive communication in the following ways; prevention, perception, perspective. Sharing Feelingsâ€” Nurses can help clients express emotions by making observations, acknowledging feelings, and encouraging communication, giving permission to express â€œnegativeâ€” feelings and modeling healthy anger. Using Touchâ€” Most potent form of communication. Comfort touch such as holding a hand, is especially important for vulnerable clients who are experiencing severe illness.
